

MobilePlanner Tablet Edition

Monitor and control on the go

Your **trusted**
partner in
automation

INTEGRATED | INTELLIGENT | INTERACTIVE

Omron's MobilePlanner Tablet Edition is an easy to use, portable, monitoring and control user interface tool for LD mobile robots. The MobilePlanner Tablet Edition is a lite user interface designed for viewing and controlling the robot fleet from a mobile device or tablet. Omron also offers the MobilePlanner PC edition which provides full configuration and control capabilities for Omron LD mobile robots, Enterprise Manager with map editing and job administrations.

Monitor Robots and Fleet Monitoring:

- View location and status of robots in color-coded map
- View alerts if robots need assistance
- View robots' coordinates, battery level and travel speed
- View job counts in current job queue

Easy-to-Use Troubleshooting and Control:

- View robots' laser readings
- Localize robots when needed
- Send robots to dock or other points on map
- Manually drive robots
- Initiate map-making process

Flexible Access Control:

- Support user account and passwords
- Control access levels
- Control multiple LD mobile robots and Enterprise Managers

View your LD mobile robot fleet anytime and from anywhere within your facility!
